To the Chief of the Main Operations Directorate of the General Staff
General-Colonel Cde. S. P. Ivanov

The launchers of the 2P27 "Shmel" guided anti-tank system are mounted on a GAZ-40PB armored reconnaissance vehicle in the standard version.

We consider it necessary to ask you to petition in front of the Government to hold the Gor'ky Council of the National Economy responsible for supplying plant N° 614 of the Saratov Council with 20 GAZ-40PB's in a tropical version no later than 10 July of this year. In this case it would be possible to obtain about 9-18 launchers from industry in July-August in the tropical version.
