For Mao Zedong

"The Soviet Government and the Central Committee of the CPSU were misled. The spread in the press of information about the use by the Americans of bacteriological weapons in Korea was based on false information. The accusations against the Americans were fictitious."

To give recommendations:

To cease publication in the press of materials accusing the Americans of using bacteriological weapons in Korea and China.

To consider it desirable that the Government of the PRC (DPRK) declare in the UN that the resolution of the General Assembly of 23 April about investigating the facts of the use by the Americans of bacteriological weapons on the territory of China (Korea) cannot be legal, since it was made without the participation of representatives of the PRC (DPRK). Since there is no use of bacteriological weapons, there is no reason to conduct an investigation.

In a tactical way to recommend that the question of bacteriological warfare in China (Korea) be removed from discussion in international organizations and organs of the UN.

Soviet workers responsible for participation in the fabrication of the so-called "proof" of the use of bacteriological weapons will receive severe punishment."
