**Memorandum from Ronald I Spiers to the Deputy
Secretary of Defense, 'US - French Military
Cooperation: Status Report'**

Citation:

"Memorandum from Ronald I Spiers to the Deputy Secretary of Defense, 'US - French Military Cooperation: Status Report'", January 24, 1973, Wilson Center Digital Archive, National Archive, Record Group 59, Top Secret Subject-Numeric-Files, 1970-73, box 1, DEF. Obtained and contributed by William Burr and included in NPIHP Research Update #2. <https://wilson-center-digital-archive.dvincitest.com/document/112420>

Summary:

Description of weapons safety talks between US and French nuclear weapons technicians. The US team is impressed that the French employ safety tactics that are on par with US practices. A third talk would help cover any remaining issues related to safety, and would also be a time to discuss underground nuclear testing by the French. The French continue to press for more technical assistance for their missile program.
