1. On 28 October the Ministry sent to the USA embassy a note of protest from the Soviet government to the American government concerning the flights around the Soviet ship "Simferopol" by American planes on 24 October of this year, and also concerning the cannon-fire during these flights.

On 31 October the embassy in a response note declares that no artillery shots at the "Simferopol" or near it had been carried out, and that the command of the "Simferopol" could have mistaken for gunfire the use by the plane's pilot of several magnetic photo-illuminating cartridges.

2. On 30 October the embassy sent to the Ministry of Foreign Affairs a note of protest concerning the "obvious inability or refusal of the Soviet powers responsible for upholding the social order to take measures in recent days to defend the personnel and the property of the embassy."¹

The embassy raises the issue of the repair of or compensation for damages incurred by embassy property and personnel, and also "expects appropriate measures to be taken for averting a repetition of such cases." This has been conveyed for informational purposes.

1. A reference to anti-U.S. protests held outside the embassy in Moscow during the crisis.
