Information on the Planned Deployment of a Delegation from Chemical Services in the Republic of Iraq

Unofficially it was found out that a deployment of a delegation from the Chemical Services of the National People's Army in the Republic of Iraq is planned for the period between 12 March and 15 June 1986.

The delegation is supposed to facilitate the transfer of the training site for chemical services, which was built by the engineering-technical foreign trade of the GDR, and to train the Iraqi personnel for this site. Furthermore it is planned to ultimately hand over the training site for use by the contracting partner, the Defense Ministry of the Republic of Iraq.

To implement these tasks the following members of Chemical Services from the National People's Army will be deployed:

Major General

The designated contact partners in the Republic of Iraq are the trade attache and the military attache of the GDR Embassy in Baghdad.

There are no objections from a political-operative viewpoint [by the Ministry of State Security] against the planned deployment of those listed.

All listed members of the army and civilian employees are confirmed as traveling cadres for non-socialist foreign countries.
