In order to cooperate with other units to carry out the propaganda work at the Asian-African Conference, which will be convened at the end of April this year, we must strengthen the Asian-African countries' understanding of China, and expand the influence of our peace policy, we have made a preliminary plan to publish the following books before the opening of the conference.

In view of the fact that most of the participating countries are colonialist or semi-colonialist countries and the people of these countries are believers of Islamism or Buddhism, we should pay attention to the propaganda of nationality and religion in the books.

Since the conference is convened in Indonesia and the commonly used foreign languages in the participating countries are English and French, our books should be in the main in English, French and Indonesian.

The names of the books are listed as follows:

□□ Nationality

* (1) China's policy on minority ethnic groups (It has been published in English and its contents include documents on the implementation of regional autonomy by minority ethnic groups, the establishment of the united democratic government of local minority ethnic groups and the protection of the rights of the scattered minority ethnic groups, and the reports on the issue of minority ethnic groups by government leaders such as Zhou Enlai, Li Weihan, Ulanfu and Liu Geping).

* (2) The present situation of the Chinese minority ethnic groups (A compilation of articles in English, French and Indonesian selected from the magazine of the People's China).

* (3) The Chinese Minority Ethnic Groups (Color collection of separate pictures already published in English, French and Indonesian, and it is planned to increase its number).

□□ Religion

* (8) China (Album of separate color pictures published already in English, French and Indonesian are planned to add more new pictures).

* (9) Selection of Traditional Chinese Paintings (20 carefully selected traditional Chinese paintings in English, French and Indonesian will be printed in color).

* 4. The Five Principles (in English, French and Indonesian)

All conversations, speeches, statements, communiqués, declarations made or issued and photos taken on various occasions in Premier Zhou Enlai's visit to India and Burma and Nehru and U Nu's visit to China will be contained and the compilation plan will be attached in separate paper).

According to the above compilation plan, 19 topics will be selected, consisting of 12 categories of books and 7 categories of picture collections. We suggest that the Ministry of Foreign Affairs will specially assign some persons to compile the two books, the Chinese People are Determined to Liberate Taiwan and the Five Principles; All-China Federation of Trade Unions, Ministry of Agriculture, the Central Committee of Youth League and All-China Women's Federation will be in charge of compiling the Workers in China, Peasants in China, Youth in China and Women in China respectively, which will be translated and published by the Foreign Languages Press, and the Foreign Languages Press will compile and publish the left books.
