In response to widely circulating reports that UNITA forces have seized the strategic Angolan town of Cuito Cuanavale, the Cuban Ministry of Revolutionary Armed Forces (MINFAR) has released a statement that appears on the front page of the January 28 edition of the Communist Party daily Granma. USINT's informal translation of the statement, entitled "MINFAR gives the lie (to assertions) that the South African racists and the bandits of UNITA have taken Cuito Cuanavale", follows:

Begin text:

In the last few days, Western media, including the anti-Cuban station that is financed and controlled by the government of the United States, have echoed and beaten on the drum of the supposed seizure by the bandits of UNITA and the South African racists of Cuito Cuanavale, capital city of the Province of Cuando Cubango. In the People's Republic of Angola on the 22nd of January, the Ministry of Revolutionary Armed Forces of Cuba state that, as the Angolan authorities have already expressed, such assertions are absolutely false and that the positions of the People's Armed Forces of Liberation of Angola (FAPLA) are being solidly maintained in the cited place after repulsing the unsuccessful attempts of the mixed force of UNITA and South African racists to occupy Cuito Cuanavale.

Also absolutely false is the information that the alluded to sources have published about the supposed casualties of Cuban military personnel in such actions.
