## DRAFT RESOLUTION SUBMITTED BY THE CHINESE DELEGATION

JUNE 16, 1954

~~It was from the meetings of President Chiang Kai-shek of the Republic of China and President Syngman Rhee of the Republic of Korea a conference has given birth in Chinhae, Korea, on June 15, 1954 in which the peoples' representatives from China, Korea, Vietnam, the Philippines, Thailand, Burma, Hong Kong and Hanoi attended. The conference is: The Asia Peoples' Anti-Communist Conference. It lasted for three days in which problems of Asia's anti-communist future have been freely discussed with enthusiasm and cordiality.~~

1. We believe Asia has only one arch enemy. It is communist imperialism. Asia is not only the major battlefield of the aggressors at the present time, but will also be the decisive front between the aggressor and anti-aggression camps. Should Soviet Russia be able to conquer Asia, peace and security of the entire world would be lost.
2. We believe that, the <sup>covering</sup> closing of China mainland behind the Iron Curtain is the cause of aggressive threat to all the nations in Asia, particularly Korea and Indo-China. Without an integral Republic of China, there will be no peace and security in Asia. We fully support Korea in her strife for unification and Viet Nam, Cambodia and Laos in their struggle for territorial integrity which we pledge our full support for their realization.
3. We believe that not only we cannot compromise with Communism but cannot live together with it in co-existence.
4. We believe that the peoples' Anti-Communist unity is a prelude to an anti-communist unity of all Asian nations. There is an urge for an Asian Anti-Communist front which will bring about an Anti-Communist crusade in Asia. We hope that the Asian and the Pacific nations may hasten to set up an organization for collective security, but we sincerely believe that any organization for collective security without the participation of the determinedly anti-communist nations with effective strength will <sup>not</sup> produce ~~practical~~ practical results.
5. We believe that, in speaking of time, the anti-communist task should start right now and in speaking of space, it should start from cities to villages, from labor unions to rural organizations, from schools to churches, from householders to government offices and from nation to all the nations of the world, anti-communist works should be omnipresent.
