United States v. Arshad Pervez, Criminal Number 87-00283, Exhibits 24 through 38-37

Citation:

"United States v. Arshad Pervez, Criminal Number 87-00283, Exhibits 24 through 38-37", November 1987, Wilson Center Digital Archive, Department of State mandatory declassification review release. Obtained and contributed by William Burr for NPIHP Research Update No. 24.

<https://wilson-center-digital-archive.dvincitest.com/document/118585>

Summary:

The exhibits included Pervez's notebooks with such incriminating language as "atom" and "military." Moreover, "my expert is procurement manager for nuclear plant." A letter from Ul-Haq to Pervez from early 1987 demonstrated that this was more than a business venture: "personal interests must not be allowed to overtake national interests."

Re: Your Telephone Discussions With John New

Dear Mr. Pervez:

Per your referenced discussion, Carpenter Technology will enter the quotation validity date from May 8 to May 18, 1987. Our price will remain firm for an order received and accepted by May 18, 1987.

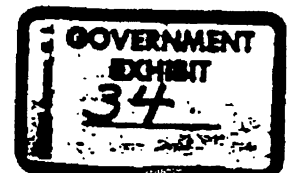

As we have discussed on prior occasions, Carpenter has an active interest toward the developing market share in Asia. We have identified Pakistan as having significant additional potential for Carpenter products. We would like to re-affirm our relationship with A.P. Enterprises and develop market strategies which could expedite our growth in sales. With this goal in mind, we wish to extend to you and Mr. David Walker, our invitation to meet with us in Reading at the time of order delivery in July. In addition, we would like to extend, through you, our formal invitation to your client, Mr. Inam of Multinational, to also visit Carpenter Technology in Reading.

For your convenience, Carpenter would be pleased to provide transportation from Toronto by means of our corporate aircraft. During your visit, we would schedule a comprehensive tour of our facilities plus meetings with our management team.

The focus of the meetings would be the development of strategic plans for sales development in Pakistan. Tentatively, we would suggest that our aircraft meet you in Toronto a day ahead of the ship date (or July 9).

We look forward to receiving your letter of credit and toward seeing you in July.

Sincerely,

 Albert J. Tomley

Dear Inam Bhai
Assalamu Alaikum

Enclosed please find a copy of the license from the U.S. Department of Commerce for the product in question. As you are aware, this has been obtained after a great deal of effort and sustained work.

Please make sure that you have every thing in order at your end so that we bring this to fruition. Please also get the L/C validated again and extended for at least eight weeks from the date the BCCI Toronto is notified of such extension.

It has been our experience that L/C extension or amendments take at least two weeks by which time the extension period is already expired or used up considerably.

Please comply with these requests fully so that we do not have to repeat these steps every two to four weeks.

Thanking you in anticipation.

Yours sincerely

Arshad Pervez

Dear *[Handwritten name]*

I can well imagine your annoyance and disappointment over the whole issue but then personal interests must not be allowed to over take national interest and it is in this spirit I am writing this letter to you. I have made numerous trips to Rawalpindi and convinced by the evidence produced of the delicate and intricate nature of the problem. Please believe when I say that in this bargain I have suffered a loss of nearly 15000 \$. This amount may be a peanut for a Canadian but is a fortune for a Pakistani. As I could ill afford to sustain this loss I have done my level best to see that the project sees the light of the day. Unfortunately it appears that it will not be possible. If you will kindly recall I had requested you right from the beginning that must by pass the 'commercial guy'. Whatever best could be done has been done. I have a suggestion to offer that let us pool our resources and locally buy on cash 2 tons per month and ship it to Pakistan on the understanding that payment will be made on production of shipping documents. I on my part will be more than willing to contribute price of one ton. May be we could make the loss suffered in the present deal over a year. Please rest assured that I have done my level best because I know that the deal would have also helped me financially but as it is today I have already suffered a loss of 15000 \$ in the bargain. I do sympathize with you and the loss suffered by you but there is nothing that I can do. However I shall make all possible efforts to get order for some other items where the loss could be made up. I will be awaiting a reply soonest possible.

Yours
