Washington 6, D. C.

August 29th, 1956

Dr. Syngman Rhee, President
Republic of Korea,
Seoul, Korea.

Dear Dr. Rhee:

Plans are being prepared to send me on another overseas trip. I should like to include Korea in my itinerary if that is agreeable to you. It has been three years since I have been to Korea. Time sure flies.

President Eisenhower, in his acceptance address, said "we have agreements with seven Nations for power reactors". I checked and found the seven were:-

- | | |
|----------------|-------------|
| Belgium | Australia |
| Canada | France |
| United Kingdom | Switzerland |
| Netherlands | |

In addition applications have been received from:-

- | | |
|--------------------|--------|
| Brazil | Norway |
| India | Italy |
| Dominican Republic | |

I have been informed that the rate Korea could manufacture power with a nuclear plant would be five and a half mills or a little more than half a cent. That should be most attractive.

With kindest regards to Mrs. Rhee and your goods elf.

Sincerely

M. Preston Goodfellow
