"Note, P. S. Ratnam, 'Starred Question No. 8196 for 30-8-1965 in Lok Sabha'", August 30, 1965, Wilson Center Digital Archive, National Archives of India, Ministry of External Affairs, 1965, Disarmament Unit, File No. U-IV/125/62/65. Obtained by Vivek Prahladan. <https://wilson-center-digital-archive.dvincitest.com/document/165241>

Summary:

The Indian Ministry of Defense evaluated the impact of the Chinese nuclear explosion and reported that the more immediate and real Chinese threat comes from conventional arms. The Chinese nuclear test poses a long term military threat, but its strategic implication and India's consequent actions require constant review.

[handwritten note appears bottom page 1]

FACTUAL NOTE REGARDING LOK SABHA QUESTION NO. 8196 FOR 30.8.1965.

The Chiefs of Staff were asked to make an evaluation of the impact of the Chinese nuclear explosion and their interim report has since been received. According to their preliminary assessment, the immediate and the real threat from China will be with the conventional arms, ammunition, etc. Naturally the nuclear explosion by China does pose a long term military threat. The strategic implications of China's developing nuclear capabilities and the consequent action India is to take to safeguard her security, are, however, under constant review. This problem would need to be studied continuously. It will not be in public interest to disclose details.

2. There is no objection to the above information being communicated to the Honourable Member.
